

## **DISCLAIMER**

The QEST4 system provides a completely non-invasive method for gaining valuable information about you or your animal's bodies vital functions. The primary objective of the screening is to disclose patterns of stress and provide feedback that will assist in developing a program to restore each system and meridian to energetic balance.

I understand that the QEST4 survey does not provide medical diagnosis or treat disease, and that the QEST4 technician may recommend further medical testing for me or my animal. If I suspect further medical intervention is required, I understand I should consult **MY** regular Physician or Veterinarian. I give my permission for the QEST4 technician to evaluate me or my animal on the QEST4 System. I understand in doing so, that the QEST4 technician is NOT becoming my primary care Physician and is NOT replacing my animals Veterinarian. I understand that the QEST4 technician will give me information about myself, or my animal, and make recommendations based on the QEST4 screening. I understand that the QEST4 technician will not pass judgements on prescribed medications, and it is the responsibility of my primary care physician or veterinarian to make any adjustments on prescribed medications. Any decision to follow through with the recommended program is my own decision and I hold the QEST4 technician harmless.

I understand that I am here to learn about natural health and better lifestyle practices and I will be offered information about food supplements and herbs as a guide to general health. I understand the intent is to provide educational information for assisting me with lifestyle changes necessary to regain and maintain an environment needed to produce a healthy balanced body for myself and/or my animal.

I understand that I should continue to see any medical doctors I am currently under the care of, and that any Prescribed medications should not be altered without first consulting the physician who recommended it. I fully understand that those who counsel me are not medical doctors, medical practitioners, licensed nutritionists, or licensed naturopaths. I am not here for any medical diagnostic purposes or treatment procedures.

Information about the traditional uses of supplements that may create a healthy balance in the body may be discussed. This is not intended to be interpreted as a substitute for a licensed physician's or veterinarian's treatment. Nothing said, done, typed, printed, or reproduced by us is intended to diagnose, prescribe, treat, or take the place of a licensed physician or licensed veterinarian.

I am not on this visit, or any subsequent visit, acting as an agent for the Local, Provincial, Federal, Law enforcement or News Media on a mission of entrapment or investigation. I understand that all information and conversations will be kept confidential, and that information concerning myself can be released to another health professional only with my written consent.

I understand that the QEST4 screening will only identify energetic imbalances and does not diagnose any diseases in the body. The Balancing Item refers to energetic frequency needed to restore balance to the body. Balancing Items are defined differently from medical terms and are not a cure for any disease. I recognize that the QEST4 screening is an unorthodox approach to balancing my health or that of my animal. Being of sound mind, I have chosen this screening to assist in balancing my health, of that of my animal, of my own free will and in exercise of my constitutional right for the attainment of life, liberty, and the pursuit of happiness.
